

Since I signed up to block telephone solicitations, life at home has been peaceful. We once receives unwanted calls at dinner, when in the shower, when trying to sleep, when home sick, etc. We do not have the option of not answering the phone, because we own a small restaurant and must be available to our staff during business hours. We have enjoyed our privacy for the past 5 months. Please do not allow unwanted solicitations to interrupt the calmness we need for a few short hours each day. Thank you.
